SANJARBEK ABDURAHMONOV

Backend Developer

Tashkent, Uzbekistan

+998940375107   **sanjarbekabdurahmonov123@gmail.com**

LINKS

Github, Gitlab

PROFILE

Energetic Software Engineer with a focus on backend development using Golang. Experienced in working with microservices and monolithic architectures, as well as managing API documentation using Swagger. Gained efficiency in working with Docker, CI/CD processes, databases (PostgreSQL, MongoDB, Redis), Casbin, and message brokers. Capable of independently writing code in C and Python. Driven to enhance system scalability and continuously motivated to learn and implement modern technologies in fast-paced environments. Proficient in English at an intermediate level.

EDUCATION

Najot Ta'lim .... Oct 2023 — Present
Backend developer   Tashkent
